

# GETTING BACK TO WORK IN NEVADA

## NAIL SALONS TIP SHEET

Your business may look very different as it begins to recover from COVID-19 impacts. To move forward, your business will need to adapt to new safety and health guidelines and respond to new and increased expectations from staff and customers. New practices and guidelines will become commonplace in order for customers to feel safe frequenting their favorite nail salons.

To help you get started we have put together this tip sheet that focuses on four important areas: **Requirements, React, Recover, Be Resilient**. We conclude the tip sheet with a list of **Resources** to help you.

### REQUIREMENTS: *Nevada Phase 1 & 2 Reopening & Mandatory Masks*

On June 25, 2020 Nevada Governor Steve Sisolak [announced](#) a **mandatory face covering policy**. The [directive](#) requires that face masks or coverings must be worn by employers, employees and visitors/customers in all public spaces. Businesses are required to inform customers of the requirement and mandate the use of face coverings prior to entry into their establishments. The mandate [guidelines](#) will be enforced by Nevada OSHA.

Nevada Governor Steve Sisolak announced *The Roadmap to Recovery for Nevada: Phase 1* on May 7, 2020 and *Phase 2* on May 26, 2020. Barber shops, hair salons and nail salons were authorized to reopen under strict social distancing requirements:

- Partitions or walls between each chair/workstation are strongly encouraged
  - Partitions or walls between each chair/workstation, then each chair/workstation can be used at any given time
  - If there are no partitions or walls between each chair/workstation, the business must only use every other chair/workstation or arrange seating to be at least 6 feet apart to create separation and achieve social distancing
- Services shall be provided by appointment only
- Customers waiting for appointment must wait outside and practice social distancing
- Customers or clients must wear face coverings
- Stylists, technicians, barbers and other employees must wear face coverings

In addition, all businesses *are encouraged to*:

- Have hand sanitizer and sanitizing products readily available for employees and customers
- Frequently perform enhanced environmental cleaning and disinfecting of commonly touched surfaces

- Designate – with signage, tape, or by other means – six feet of spacing for employees and customers to maintain appropriate social distancing
- Encourage employees to do a self-assessment each day in order to check if they have any COVID-19 type symptoms (fever, cough or shortness of breath)
- Remind employees to stay home when sick, use cough and sneeze etiquette, and practice frequent hand hygiene
- Close common areas where personnel are likely to congregate and enforce strict social distancing
- Implement separate operating hours for the elderly and vulnerable customers

## REACT: *Get ready to open your doors again!*

**Be Prepared** – Based on the above guidelines, below is a starter checklist of what you might need or find helpful to purchase or prepare before you reopen. **Always check with the state, your county, and your local health district for current operating guidelines because local jurisdictions can impose stricter requirements than the state:**

- Face masks for employees (and as a courtesy for customers)
- Face shields for employees, where applicable (for example, when spraying)
- Nitrile gloves for employees
- EPA-approved COVID-19 cleaners & disinfectants (See RESOURCES for link)
- Online or digital booking software for appointments
- Additional spray bottles
- Storage containers with lids for products & tools
- Additional supply of clean towels, cloth and paper
- Disinfectant wipes
- Touchless thermometer
- Touchless hand sanitizer stations & hand sanitizer
- Touchless payment systems
- Plexiglass/clear acrylic partitions for use between chairs/workstations & checkout
- Sufficient supply of single use items
- Extra sets of tools and implements to rotate and always have clean and disinfected items available (while one set of tools is being disinfected, have a second set ready to use)
- Duct tape to indicate 6 foot distances on the ground for outside waiting area and queue areas
- Eliminate test products
- Remove magazines and non-essential items, like children’s toys, from waiting areas
- “No Mask No Service” signage

## RECOVER: *Expect new ways of doing business. The new nail care experience.*

Reopening requires businesses to adapt to new operating requirements that include the above social distancing and enhanced health and safety guidelines. Some best practices and tips that may help implement the new guidelines include:

### *Operations*

- Deep clean your nail salon before the initial reopening and then daily upon reopening
- Maintain regular housekeeping practices for high contact surfaces, including your reception desk and tables; it is recommended to routinely clean dirty surfaces first with soap and water and then use US EPA-approved COVID-19 disinfectants to limit the spread of the virus
- Establish new operating hours so you can close earlier and an employee can thoroughly clean each night
- Consult the [Nevada State Board of Cosmetology](#) for disinfection information and nail salon [checklist](#); disinfection of tools and implements, such as nail clippers, cuticle pushers, and dappen dishes, should be done by immersion or spraying and wiping of disinfectant
- Nail station tools should be new, never used, or cleaned and disinfected then stored in a closed lid container between clients
- Clean and disinfect pedicure stations, bowls, and any screens according to state regulations ensuring adequate contact time (often 10 minutes) to disinfect between clients
- Throw away single use items such as aluminum foils, cotton, disposable product applicators, nail files, nail buffers, pumice stones, foot files, sanders and sleeves for drills, and orangewood sticks
- Launder all towels and linens after each client following state regulations and completely dry items and store in closed, covered cabinets
- Disinfect client service chairs/workstations between clients
- Have a dedicated staff member assigned to sanitize each tool, product bottles, and service and reception areas once guests have departed
- Provide touchless hand sanitizer stations for employees and guests, particularly at entry points
- Mark off six-foot distances on the floor to maintain space at the checkout payment station
- Payment:
  - Consider installing and using a touchless, non-signature payment system
  - Consider having customers pay through an app on their phones

### *Employees*

- Provide and require employees to wear face masks
- Assess staff daily for COVID-19 symptoms and do not allow anyone with a temperature over 100F degrees to work; consider no touch thermometers for pre-shift temperature checks. Keep a log
- Provide employees with nitrile gloves to wear and/or provide instruction on proper hand hygiene to practice between interactions with each customer
- Rearrange retail so only employees can access the area and directly hand products to customers

### *Guests*

- Require customers to wear face coverings; provide masks for customers not arriving with their own
- Provide signage and encourage clients with COVID-19 symptoms or exposures to reschedule appointments
- Keep organized client records for contact tracing
- Any food and beverage services, including water coolers, should temporarily be removed

## **BE RESILIENT:** *This is all new. Adapt as necessary. Let's stay in business together.*

Business basics will be more important than ever. Evaluate your profit and loss statement. Look for ways to reduce operating costs. Analyze your cash flow and breakeven to evaluate the impacts of the new guidelines and best practices on your operations. As Nevada reopens in phases, you may need to continually adjust your operations. Here are a few things to think about:

### **Get Help**

- Contact a business development counselor at the Nevada SBDC by calling 800.240.7094 for help
  - Assessing your operations and deciding on best strategies for keeping your business open
  - Evaluating financial assistance options including PPP loans and maximizing loan forgiveness
- For questions about cleaning and disinfecting, strategies to control new waste streams, or other environmental questions, contact an environmental business advisor at BEP at 800.882.3233

### **Communicate**

- Keep communicating with your customers on social media and your website with announcements about your reopening, make sure they know you are not shut down for good
- Be open about the measures you are taking to meet the Phase 1 reopening guidelines; consider signage at your entrance so customers are aware of the steps you are taking to prevent the spread of COVID-19 and meet new industry guidelines
- Be patient, communicate openly with staff while waiting for customers to return

### **Expanded Services**

- Consider offering service or product sales that are an “add-on” to scheduled services to reduce client visits and PPE/disinfection cycles.
- Offer hours of business that are most popular or stagger days and schedules to offer services that closely match clients’ schedules
- Offer gift cards
- Offer product kits and product discounts to reduce inventory and satisfy customer needs

### **Potential Cost-Saving Measures**

- Revamp and simplify your product offerings to increase margins, minimize product expiration
- Reduce hours to minimize utility bills and increase time for cleaning, for example instead of staying open from 10:00 AM to 9:00 PM operate from 10:00 AM to 7:00 PM.
- Only turn on utilities that are needed – do not use all fans, lights, or air conditioners in the salon when fewer people are seated

### **Creative Marketing**

- Update or redesign your website; make sure it is mobile friendly
- Use micro social media and focus more on the immediate neighborhood in order to bring in local clients
- Advertise through local homeowner associations
- Consider starting or expanding client referral programs

**This tip sheet will be updated as new information becomes available.  
Stay Safe to Stay Open Nevada!**

The Nevada Small Business Development Center (SBDC) guides and assists Nevadans looking to start and grow businesses. We are available to counsel on business planning and management issues raised in this tip sheet. One-on-one counseling services are free and confidential.

The Business Environmental Program (BEP) is affiliated with the Nevada SBDC and provides free and confidential environmental compliance and management assistance and can help your business think about cleaning and waste issues. Our focus is on making Nevada's businesses stronger and more environmentally responsible.

*DISCLAIMER: This guidance document is intended as general information and is not provided nor intended to act as a substitute for legal advice or other professional services. The Nevada SBDC advises the regulated business community to read all applicable regulations and to check with state and local authorities, including local health districts, for the latest in guidelines and requirements for businesses reopening during the COVID-19 pandemic. This tip sheet is funded, in part, through a Cooperative Agreement with the US Small Business Administration and funding support from the Nevada Division of Environmental Protection. All opinions, conclusions, and/or recommendations expressed herein are those of the author(s) and do not necessarily reflect the views of the SBA.*
