

# How to Manage Asbestos in School Buildings

## AHERA Designated Person Training Series

*Hosted by the US Environmental Protection Agency - AHERA Center for Excellence*

---

This EPA four-part webinar training series is designed to assist Asbestos Hazard Emergency Response Act (AHERA) designated persons in understanding their responsibilities to help local education agencies comply with federal asbestos in schools regulations.

---

### Part 1: Introduction to Asbestos

**Friday, August 13, 2021 @ 12:00PM – 1:30 PM CST**

Participants will learn about the following:

- Knowledge of Asbestos
- Asbestos Hazard Emergency Response Act (AHERA)
- Health risk associated with asbestos
- Asbestos exposure risk

Featured Speakers:

**Rich Ponak** - Enforcement Officer for the US Environmental Protection Agency, Region 3. Conducts inspections and case development for CAA NESHAP, TSCA AHERA, TSCA Lead, and FIFRA.

**Arthur L. Frank, MD, PhD** - Professor of Environmental and Occupational Health at Drexel University. He is trained in both internal medicine and occupational medicine and holds board certification in both fields. Major research activities have included the study of occupational lung diseases such as asbestosis and silicosis, occupational cancers, especially those related to asbestos exposure.
